*California Natural Diversity Data Base, U.S. Fish & Wildlife Service, and California Native Plant Society Lists: North Fork Site*

California Department of Fish and Game  
Natural Diversity Database

Selected Elements by Scientific Name

Special-status species within the "Cascadel Point, CA" 7.5' USGS quadrangle and the eight surrounding quads: Shuteye Peak, Bass Lake, Auberry, Mammoth Pool Dam, North Fork, Millerton Lake East, Musick Mtn., and Shaver Lake

Scientific Name/Common Name	Element Code	Federal Status	State Status	GRank	SRank	CDFG or CNPS
1 Accipiter gentilis northern goshawk	ABNKC12060			G5	S3	SC
2 Actinemys marmorata western pond turtle	ARAAD02030			G3G4	S3	SC
3 Antrozous pallidus pallid bat	AMACC10010			G5	S3	SC
4 Aquila chrysaetos golden eagle	ABNKC22010			G5	S3	SC
5 Branchinecta lynchi vernal pool fairy shrimp	ICBRA03030	Threatened		G3	S2S3	
6 Calasellus longus An isopod	ICMAL34020			G1G2	S1S2	
7 Calyptidium pulchellum Mariposa pussypaws	PDPOR09060	Threatened		G1	S1.1	1B.1
8 Camissonia sierrae ssp. alticola Mono Hot Springs evening-primrose	PDONA031H1			G3T2	S2.2	1B.2
9 Carpenteria californica tree-anemone	PDHDR04010		Threatened	G2	S2.2	1B.2
10 Castilleja campestris ssp. succulenta succulent owl's-clover	PDSCR0D3Z1	Threatened	Endangered	G4?T2	S2.2	1B.2
11 Central Valley Drainage Hardhead/Squawfish Stream	CARA2443CA			G?	SNR	
12 Central Valley Drainage Rainbow Trout/Cyprinid Stream	CARA2422CA			G?	SNR	
13 Central Valley Drainage Resident Rainbow Trout Stream	CARA2421CA			G?	SNR	
14 Chrysis tularensis A cuckoo wasp	IHYM72010			G1G2	S1S2	
15 Collomia rawsoniana Rawson's flaming trumpet	PDPLM02080			G2	S2.2	1B.2
16 Corynorhinus townsendii Townsend's big-eared bat	AMACC08010			G4	S2S3	SC
17 Desmocerus californicus dimorphus valley elderberry longhorn beetle	IICOL48011	Threatened		G3T2	S2	
18 Didymodon norrisii Norris' beard moss	NBMUS2C0H0			G2G3	S2.2	2.2
19 Empidonax traillii willow flycatcher	ABPAE33040		Endangered	G5	S1S2	
20 Eryngium spinosepalum spiny-sepaled button-celery	PDAP10Z0Y0			G2	S2.2	1B.2
21 Erythronium pluriflorum Shuteye Peak fawn lily	PMLIL0U0Q0			G1	S1.3	1B.3
22 Euderma maculatum spotted bat	AMACC07010			G4	S2S3	SC

## FISH AND WILDLIFE SERVICE

**Sacramento Fish and Wildlife Office  
2800 Cottage Way, Room W-2605  
Sacramento, California 95825**

January 16, 2008

Document Number: 080116125316

Sean Marquis  
Analytical Environmental Services  
1801 7th Street, Suite 100  
Sacramento, CA 95811

Subject: Not specified

Dear: Mr. Marquis

We are sending this official species list in response to your January 16, 2008 request for information about endangered and threatened species. The list covers the California counties and/or U.S. Geological Survey 7½ minute quad or quads you requested.

Our database was developed primarily to assist Federal agencies that are consulting with us. Therefore, our lists include all of the sensitive species that have been found in a certain area *and also ones that may be affected by projects in the area*. For example, a fish may be on the list for a quad if it lives somewhere downstream from that quad. Birds are included even if they only migrate through an area. In other words, we include all of the species we want people to consider when they do something that affects the environment.

Please read Important Information About Your Species List (below). It explains how we made the list and describes your responsibilities under the Endangered Species Act.

Our database is constantly updated as species are proposed, listed and delisted. If you address proposed and candidate species in your planning, this should not be a problem. However, we recommend that you get an updated list every 90 days. That would be April 15, 2008.

Please contact us if your project may affect endangered or threatened species or if you have any questions about the attached list or your responsibilities under the Endangered Species Act. A list of Endangered Species Program contacts can be found at [www.fws.gov/sacramento/es/branches.htm](http://www.fws.gov/sacramento/es/branches.htm).

Endangered Species Division

**Federal Endangered and Threatened Species that Occur in  
or may be Affected by Projects in the Counties and/or  
U.S.G.S. 7 1/2 Minute Quads you requested**

Document Number: 080116125316

Database Last Updated: December 12, 2007

Quad Lists

Listed Species

Invertebrates

- Branchinecta conservatio*  
Conservancy fairy shrimp (E)
- Branchinecta lynchi*  
Critical habitat, vernal pool fairy shrimp (X)
- Desmocerus californicus dimorphus*  
valley elderberry longhorn beetle (T)

Fish

- Hypomesus transpacificus*  
delta smelt (T)
- Oncorhynchus mykiss*  
Central Valley steelhead (T) (NMFS)

Amphibians

- Ambystoma californiense*  
California tiger salamander, central population (T)  
Critical habitat, CA tiger salamander, central population (X)
- Rana aurora draytonii*  
California red-legged frog (T)

Reptiles

- Gambelia (=Crotaphytus) sila*  
blunt-nosed leopard lizard (E)

Mammals

- Dipodomys nitratoides exilis*  
Fresno kangaroo rat (E)

Plants

- Calyptidium pulchellum*  
Mariposa pussy-paws (T)
- Castilleja campestris ssp. succulenta*  
Critical habitat, succulent (=fleshy) owl's-clover (X)  
succulent (=fleshy) owl's-clover (T)
- Orcuttia inaequalis*  
Critical habitat, San Joaquin Valley Orcutt grass (X)
- Pseudobahia bahiifolia*  
Hartweg's golden sunburst (E)

Candidate Species

Amphibians

- Rana muscosa*  
mountain yellow-legged frog (C)

Mammals

- Martes pennanti*  
fisher (C)

## Quads Containing Listed, Proposed or Candidate Species:

MUSICK MTN. (397A)  
 CASCADEL POINT (397B)  
 AUBERRY (397C)  
 SHAVER LAKE (397D)  
 NORTH FORK (398A)  
 MILLERTON LAKE WEST (398C)  
 SHUTEYE PEAK (417C)  
 MAMMOTH POOL DAM (417D)  
 BASS LAKE (418C)

## County Lists

No county species lists requested.

### Key:

- (E) *Endangered* - Listed as being in danger of extinction.
- (T) *Threatened* - Listed as likely to become endangered within the foreseeable future.
- (P) *Proposed* - Officially proposed in the Federal Register for listing as endangered or threatened.
- (NMFS) Species under the Jurisdiction of the National Oceanic & Atmospheric Administration Fisheries Service. Consult with them directly about these species.
- Critical Habitat* - Area essential to the conservation of a species.
- (PX) *Proposed Critical Habitat* - The species is already listed. Critical habitat is being proposed for it.
- (C) *Candidate* - Candidate to become a proposed species.
- (V) Vacated by a court order. Not currently in effect. Being reviewed by the Service.
- (X) *Critical Habitat* designated for this species

## Important Information About Your Species List

### How We Make Species Lists

We store information about endangered and threatened species lists by U.S. Geological Survey 7½ minute quads. The United States is divided into these quads, which are about the size of San Francisco.

The animals on your species list are ones that occur within, **or may be affected by** projects within, the quads covered by the list.

- Fish and other aquatic species appear on your list if they are in the same watershed as your quad or if water use in your quad might affect them.
- Amphibians will be on the list for a quad or county if pesticides applied in that area may be carried to their habitat by air currents.
- Birds are shown regardless of whether they are resident or migratory. Relevant birds on the county list should be considered regardless of whether they appear on a quad list.

### Plants

Any plants on your list are ones that have actually been observed in the area covered by the list. Plants may exist in an area without ever having been detected there. You can find out what's in the surrounding quads through the California Native Plant Society's online [Inventory of Rare and Endangered Plants](#).

### Surveying

Some of the species on your list may not be affected by your project. A trained biologist or botanist, familiar with the habitat requirements of the species on your list, should determine whether they or habitats suitable for them may be affected by your project. We recommend that your surveys include any proposed and candidate species on your list.

For plant surveys, we recommend using the [Guidelines for Conducting and Reporting Botanical Inventories](#). The results of your surveys should be published in any environmental documents prepared for your project.

## Your Responsibilities Under the Endangered Species Act

All animals identified as listed above are fully protected under the Endangered Species Act of 1973, as amended. Section 9 of the Act and its implementing regulations prohibit the take of a federally listed wildlife species. Take is defined by the Act as "to harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect" any such animal.

Take may include significant habitat modification or degradation where it actually kills or injures wildlife by significantly impairing essential behavioral patterns, including breeding, feeding, or shelter (50 CFR §17.3).

Take incidental to an otherwise lawful activity may be authorized by one of two procedures:

- If a Federal agency is involved with the permitting, funding, or carrying out of a project that may result in take, then that agency must engage in a formal [consultation](#) with the Service.

During formal consultation, the Federal agency, the applicant and the Service work together to avoid or minimize the impact on listed species and their habitat. Such consultation would result in a biological opinion by the Service addressing the anticipated effect of the project on listed and proposed species. The opinion may authorize a limited level of incidental take.

- If no Federal agency is involved with the project, and federally listed species may be taken as part of the project, then you, the applicant, should apply for an incidental take permit. The Service may issue such a permit if you submit a satisfactory conservation plan for the species that would be affected by your project.

Should your survey determine that federally listed or proposed species occur in the area and are likely to be affected by the project, we recommend that you work with this office and the California Department of Fish and Game to develop a plan that minimizes the project's direct and indirect impacts to listed species and compensates for project-related loss of habitat. You should include the plan in any environmental documents you file.

## Critical Habitat

When a species is listed as endangered or threatened, areas of habitat considered essential to its conservation may be designated as [critical habitat](#). These areas may require special management considerations or protection. They provide needed space for growth and normal behavior; food, water, air, light, other nutritional or physiological requirements; cover or shelter; and sites for breeding, reproduction, rearing of offspring, germination or seed dispersal.

Although critical habitat may be designated on private or State lands, activities on these lands are not restricted unless there is Federal involvement in the activities or direct harm to listed wildlife.

If any species has proposed or designated critical habitat within a quad, there will be a separate line for this on the species list. Boundary descriptions of the critical habitat may be found in the Federal Register. The information is also reprinted in the Code of Federal Regulations (50 CFR 17.95). See our [critical habitat page](#) for maps.

## Candidate Species

We recommend that you address impacts to candidate species. We put plants and animals on our candidate list when we have enough scientific information to eventually propose them for listing as threatened or endangered. By considering these species early in your planning process you may be able to avoid the problems that could develop if one of these candidates was listed before the end of your project.

## Species of Concern

The Sacramento Fish & Wildlife Office no longer maintains a list of species of concern. However, various other agencies and organizations maintain lists of at-risk species. These lists provide essential

information for land management planning and conservation efforts. [More info](#)

## Wetlands

If your project will impact wetlands, riparian habitat, or other jurisdictional waters as defined by section 404 of the Clean Water Act and/or section 10 of the Rivers and Harbors Act, you will need to obtain a permit from the U.S. Army Corps of Engineers. Impacts to wetland habitats require site specific mitigation and monitoring. For questions regarding wetlands, please contact Mark Littlefield of this office at (916) 414-6580.

## Updates

Our database is constantly updated as species are proposed, listed and delisted. If you address proposed and candidate species in your planning, this should not be a problem. However, we recommend that you get an updated list every 90 days. That would be April 15, 2008.
